

Greek & Latin Roots by Avenues of the Mind

Avenues of the Mind has created two flashcard sets (Silver and Gold levels) to help teach Greek and Latin roots. The roots in each set are used in 100 derivatives with 100 mnemonic pictures. These flashcards are fantastic for visual learners! Each set contains 225 (4 inch by 6 inch) flashcards that contain the root or derivative and its meaning on one side and a mnemonic picture on the other. The pictures are bright and colorful making them appealing to children who might have visual challenges. Each flashcard set has a companion workbook that can be purchased separately. The workbook contains fun activities to help reinforce learning. There are no tests, just lots of fun and learning!

Teaching Greek and Latin roots and derivatives is extremely important. These roots will help your child gain understanding of a wide variety of complex words in our English language.

This product is appropriate for grades 6 and up. It could be used with younger advanced students.

Greek and Latin Roots by Avenues of the Mind is a great product that will add much value to your homeschool!
